

SolarGrid Energy Solutions

**1 375mw energy storage
system in Uzbekistan**

Overview

Equipped with Sungrow's advanced liquid-cooled ESS PowerTitan 2.0, this facility is Uzbekistan's first energy storage project and the largest of its kind in Central Asia. Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 — The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

How will Uzbekistan improve its energy security?

"This project will enhance Uzbekistan's energy security through the use of innovative solutions and technologies," noted Marco Mantovanelli, World Bank Country Manager for Uzbekistan.

Who will sell electricity to in Uzbekistan?

The project company is committed to selling electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities.

How does the World Bank help Uzbekistan?

These efforts support the country's clean energy transition and decarbonization, as well as its economic growth. In this context, the World Bank Group is helping Uzbekistan develop 2,000 MW of solar and 500 MW of wind energy by attracting private sector investments.

What will ACWA Power's Bess agreement mean for Uzbekistan?

Under the agreement, Acwa Power will receive contractual priority for 2 GWh of new BESS capacity in Uzbekistan, which will allow it to offer competitive tariffs. The two parties will collaborate on feasibility studies to identify optimal locations for BESS projects. The agreement is valid for two years and can be

extended by mutual consent.
