

## SolarGrid Energy Solutions

# 100ah power station in China in Brasilia

## Overview

---

How much will Brazil's new power plant cost in 2029?

"With an investment of 20 billion reais (\$3.4 billion), the project will supply 5 million kilowatts of power to regions including the capital Brasilia and is scheduled to be put into operation in 2029," said Wang Xiaogang, chief technical officer at State Grid Brazil Holding.

Where is Brazil's electricity used?

While 80 percent of Brazil's electricity is used by the more developed areas in southern and southeastern parts of the country, main power plants are located in the north, more than 2,000 kilometers away. The fast growing demand for electricity calls for a "power expressway" to transmit the power generated in Belo Monte to southeast Brazil.

How many power-transmission projects has State Grid won in Brazil?

Since then, State Grid has won about a dozen power-transmission projects in Brazil. "Among them, the most noteworthy is the Belo Monte project that has been put into operation," said Wang. The 2,500-km Belo Monte ultrahigh voltage (UHV) transmission project, which started in 2014, was completed in two phases, both ahead of schedule.

How much money do Chinese electric companies invest in Brazil?

In the first five months of the year, Chinese companies unveiled more than \$13 billion in investment in the sector, according to an analysis by Valor. The country is already one of the main investors in the segment. Between 2007 and 2021, Chinese electric companies invested \$32 billion in Brazil.

Will China invest in the Brazilian power industry?

Adriana Waltrick — Foto: Silvia Zamboni/Valor China's interest in the Brazilian power industry is back. In the first five months of the year, Chinese companies unveiled more than \$13 billion in investment in the sector, according to an

analysis by Valor. The country is already one of the main investors in the segment.

How will China's powerchina project impact Brazil?

After completion, the solid waste treatment capacity will reach 870 tons per day, which can process waste generated by 740,000 people and provide electricity services for 320,000 people. As one of the earliest Chinese enterprises to enter Brazil, POWERCHINA is also a witness of the comprehensive strategic partnership between China and Brazil.
