11ac wireless outdoor base station installation

Overview

What is B9 5GHz 11AC 867Mbps outdoor basestation?

B9 5GHz 11AC 867Mbps Outdoor Basestation is designed for PtP and PtMP solutions for rural wireless connectivity and CCTV surveillance. Features with two RP-SMA enable it to pair with dish antenna or sector antenna to establish PtP backhaul connection and P2MP link.

Who relies on an outdoor wireless network?

Professionals in healthcare and education rely on it for daily operations. While an outdoor wireless network may be considered to be an added bonus for some, establishing an outdoor wireless network may seem like a daunting task, but it's not as hard as you may think.

How do I install the UniFi AP AC outdoor?

The recommended mounting of the UniFi AP AC Outdoor is on a pole. Optionally, the UniFi AP may be installed on a wall using additional hardware. Perform the steps for the appropriate installation: The Mounting Bracket must be mounted directly to a wood stud or other structurally stable surface using four fasteners (not included).

Do you need an outdoor wireless network?

Do you need an outdoor wireless network?

Professionals in healthcare and education rely on it for daily operations. While establishing one may seem daunting, it's not as hard as you may think.

How do you attach a UNIFI AP to a pole?

Insert a Zip Tie through the slot of the mount bracket on the back of the UniFi AP. Position the UniFi AP at the desired location on the pole and then fasten the Zip Tie around the pole. Fasten the second Zip Tie in the same manner.

How do I fix a SWX uapac receiver?

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. The device has been approved by the FCC under FCC ID: SWX- UAPAC.
