# **1200W portable power station in Estonia**

## Overview

---

How much will Estonia's nuclear power plant cost?

He said on no specific reactor has been chosen yet. The plant is expected to be built by private investors and company Fermi Energia has been at the forefront of Estonia's nuclear power plant discussions. The project is expected to cost €2 billion euros and small modular reactors with a capacity of 300 megawatts are being considered.

What makes Estonia a digital powerhouse?

According to Freedom House, this country also enjoys one of the most significant economic, press, and Internet freedoms globally. The secret of being a digital powerhouse lies in the pioneering advances made by its government under its innovative e-Estonia initiative – fostering innovative education, virtual business, and digital citizenship.

What is the largest power plant in Estonia?

The largest power complex in the country, Narva Power Plants, consists of the world's two largest oil shale -fired thermal power plants. The complex used to generate about 95% of total power production in Estonia in 2007. Falling to 86% in 2016 and 73% in 2018.
