

## SolarGrid Energy Solutions

# 1500 container energy storage equipment

## Overview

---

What is a stationary battery energy storage system?

The stationary battery energy storage systems feature multi-level short circuit protection at the pack, rack, and container levels. Advanced BMS and sophisticated data algorithms ensure thermal stability across both pack and rack levels. Our systems feature 314Ah battery cells integrated into an IP67-rated battery pack design.

What is Delta pcs1500?

Delta's PCS1500 offers power capacities from 1000 to 1725 kVA with 98.4% efficiency. Its air-cooled, compact design ensures adaptability, making it an efficient solution for diverse applications.

What is a pcs1500?

The PCS1500 is ideal for projects requiring efficient power management and space-saving installation. Delivers high single-unit power output, minimizing equipment requirements for large-scale projects, optimizing land use, and optimizing CapEx.

Why should you choose a pcs1500 battery?

Battery technology independence allows seamless integration with various mainstream battery brands and technologies, providing flexibility and reliability. The PCS1500 is ideal for projects requiring efficient power management and space-saving installation.
