

## SolarGrid Energy Solutions

# 300V off-grid inverter

## Overview

---

What is a 40kW inverter for off-grid use?

The 40kW inverter for off-grid use features high-quality pure sine wave AC output and a 3 phase 4 wire connection. It has a no battery design, a wide DC input voltage range, an LCD display, and converts DC power to AC power in solar power systems.

What is an off-grid inverter?

An 'Off Grid' or 'camping' inverter is a type of inverter that requires battery, wind, or solar power to function. It is commonly used off the grid and can be fixed or portable if small enough.

Do off-grid solar inverters need grid power?

UTL's off-grid solar inverters don't require grid power to work. That means you can run the inverter, to convert the variable DC generated by the panels to utility frequency AC, at a place that is far away from the utility power grid.
