

**SolarGrid Energy Solutions**

# **3k uninterruptible power supply**

## Overview

---

What is a 3kva uninterruptible power supply?

3kVA uninterruptible power supplies are designed to power loads up to 3kVA but the kilo-Watt loading will depend on the UPS output power factor. Typical loads for a 3kVA UPS include file servers, storage devices IT networks and VoIP telecoms systems.

What is an uninterruptible power supply (UPS)?

Kstar's MP S series uninterruptible power supplies (UPS) are high-reliability devices that feature input and output voltage isolation. This design ensures the protection of connected equipment from damage caused by fluctuations in electrical parameters within the network.

What is a s3k uninterruptible power supply mini-tower?

The S3K uninterruptible power supply mini-tower is an economical choice for those applications requiring the performance of a sinewave output, line interactive UPS with the mini-tower shape for cabinet installations.

How does the s3k series uninterruptible power supply work?

The S3K Series uninterruptible power supply protects against most severe power disturbances including over/under voltages through state of art, line-interactive technology - most power disturbance corrections are accomplished without transferring to the internal battery.

## 3k uninterruptible power supply
