

## SolarGrid Energy Solutions

# 80kWh lithium iron phosphate battery pack

## Overview

---

What is a 80kWh battery?

The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: [Click The Button Below To Get A Discount Price](#). The 80kWh battery pack consists of five 16kWh LiFePO4 battery modules.

How many LiFePO4 cells are in the 80kWh battery pack?

The 80kWh battery pack consists of five 16kWh LiFePO4 battery modules. Each module is rated at 102.4V and 157Ah. The enclosure has an IP20 protection rating, meeting the requirements for normal environmental use. Its features are as follows: • Uses Grade A LiFePO4 cells: Each module is made up of 32 Grade A 3.2V cells connected in series.

Can a DeLong 80kWh battery be used as a solar energy system?

DeLong's 80kWh battery pack can be connected to an inverter or PCS to form a solar energy system. This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications.

How many volts can a 80 kWh battery output?

This system can output a voltage of 512V. You can use it in grid-tied, off-grid, or hybrid modes. The 80kWh battery meets energy needs for residential, commercial, emergency, and industrial applications. Price: [Click The Button Below To Get A Discount Price](#).

How much weight can a DeLong 80kWh battery support?

It can easily support the weight of the large-capacity battery, which is 672 kg. The DeLong 80kWh lithium battery has a high usable capacity and can undergo up to 6,500 cycles. At the same time, it has a very low self-discharge rate, giving it a lifespan that is 3 to 5 times longer than that of lead-acid

batteries.

What is the difference between A LiFePO4 and a 500V battery?

The 80kWh LiFePO4 battery has a high energy density. It can store more capacity in a smaller size. Compared to lead-acid batteries, the 500V lithium battery takes up less space and offers greater adaptability to various applications. Our system uses a modular design, making it easy to expand capacity.
