

**SolarGrid Energy Solutions**

**ASEAN rainproof photovoltaic  
panel manufacturer**

## Overview

---

Will Southeast Asia become a solar PV manufacturing hub?

Fabby added that Southeast Asia has the potential to become a solar PV manufacturing hub, supplying both domestic and global demand. Currently, seven Southeast Asia countries already have manufacturing capacity in various stages, with a total annual capacity of 70 GW of solar module production, with Vietnam supplying half of this capacity.

Can ASEAN develop solar PV manufacturing capability?

Fabby Tumiwa, the Executive Director of Institute for Essentials Services Reform and the Chairman of The Indonesia Solar Energy Association said that ASEAN must establish strong cooperation in developing solar PV manufacturing capability.

Who is Asian solar?

Asian Solar is one of Southeast Asia's leading Solar Energy Firms. We are involved in design and installation of solar systems, as well as distributing solar panels from manufacturers in Thailand, China, and throughout Asia. Learn more about what we do Asian Solar has experience with diverse types of clients and installation scales.

Do ASEAN countries have a potential for solar PV?

Finally, the paper presents conclusions and a set of recommendations. Out of the 10 ASEAN countries, 5 have implemented FiT as a key policy incentive to stimulate the progress of RE. It is found that the ASEAN countries have great potential for solar PV in term of their annual solar insolation levels, which ranging from 1460 to 1892 kWh/m<sup>2</sup>per year.

Why is PV module manufacturing under pressure in Southeast Asia?

Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure. Operational capacities have been significantly

reduced or temporarily halted, primarily due to U.S. import tariffs. Once a strategic workaround for Chinese manufacturers aiming to access Western markets, Southeast Asia now faces growing constraints.

Who is involved in solar R&D in the Philippines?

The local universities, industries, and investors are working closely in solar R&D. SunPower and Solaria are two global established designers and manufacturers of solar panels which are involved in solar projects and R&D in the Philippines. They also work as a solar supply chain to the local solar industries.
