

**SolarGrid Energy Solutions**

# **Abu Dhabi Energy Storage Power Generation**

## Overview

---

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery storage to deliver 1 gigawatt of baseload electricity. Why should UAE invest in solar power & battery energy storage?

The world-leading project reflects the vision and commitment of the UAE leadership in driving socioeconomic and environmental progress. The accelerated integration of solar power and advanced battery energy storage sets a new benchmark in clean energy, driving sustainability and reducing carbon emissions.

Will Masdar & EWEC build a solar-plus-storage project in Abu Dhabi?

Masdar and Emirates Water and Electricity Co. (EWEC) plan to build a \$6 billion, 5 GW/19 GWh solar-plus-storage project in Abu Dhabi, with operations set to start by 2027. Emirati state-owned renewable investment company Masdar is partnering with EWEC to build a giant solar and battery energy storage (BESS) facility.

How much electricity does Abu Dhabi generate?

Abu Dhabi's energy sector has a total available electricity generation capacity of 16,701 MW while the total electricity generated was 84,740 GWh. Peak demand load at Abu Dhabi Distribution Company (ADDC) grew by 8% from 2019 to reach 6,568 MW in 2020, while that of Al Ain Distribution Company (AADC) grew by 2.9% to reach 2,444 MW.

Does EWEC have a large-scale solar project in Abu Dhabi?

EWEC has several large-scale solar projects in the region, including the 2 GW Al Dhafra solar project in Abu Dhabi. Earlier this month, it put out a request for proposals for 1.5 GW of solar.

What is the role of the energy sector in Abu Dhabi?

Our role is to facilitate the development of the energy sector in Abu Dhabi in order to support the economic, environmental, and social sustainability requirements of the emirate, both today and into the future, as part of the Abu Dhabi 2030 vision, which aims at establishing a robust and secure society with a sustainable economy.

How will a 19gwh battery storage facility benefit solar power?

The solar PV and BESS facility will provide unparalleled stability and efficiency by overcoming the intermittency challenges of renewable energy. The 19GWh battery storage facility will enable seamless integration of solar power into the grid.
