

## SolarGrid Energy Solutions

# Abu Dhabi Generator Photovoltaic Power Station

## Overview

---

Covering an area of 20 square km in the Al Dhafra region, located around 30 km south of Abu Dhabi City, the 2 GW plant uses four million solar modules to generate enough electricity for 200,000 homes across the UAE per year. How much solar power does Abu Dhabi have?

After adding this project to the UAE's solar portfolio, the country's solar power production capacity will increase to 3.2GW. Located 35 kilometres from Abu Dhabi city, the project was co-developed with Abu Dhabi National Energy Company, French power company EDF Renewables and Chinese solar developer JinkoPower.

Who owns 2GW Al Dhafra solar PV project in Abu Dhabi?

Image: Masdar UAE state-owned renewable energy developer Masdar has inaugurated the 2GW Al Dhafra Solar solar PV project in Abu Dhabi.

Why is the solar energy sector growing in Abu Dhabi?

UAE, although being a big oil producer, is attempting to diversify its energy mix because of the warmer weather, there is more solar energy available. The solar energy sector is rapidly expanding. A 100 megawatt concentrated solar power (CSP) station become operational in 2013 near Abu Dhabi.

Does Al Dhafra have a solar project in Abu Dhabi?

The Al Dhafra PV2 Solar project in Abu Dhabi – for which ABB supplies automation and optimization power generation solutions – is now exporting 100 percent of its designed capacity onto the grid.

Where are the best solar power stations in UAE?

Top biggest solar photovoltaic power stations in United Arab Emirates. (Updated October 2024) About 35km south of Abu Dhabi City. Lowest solar energy tariff in the world - AED4.97 fils/kWh (US1.35 cents/kWh). Bifacial crystalline technology. Located at Sweihan. Phase I completed in 2013,

followed by Phase II and III.

Where is a solar plant located in Dubai?

This Solar plant is located in Saih Al-Dahal, about 50 kilometers south of Dubai, This park has a total size of 77 kilo-meter<sup>2</sup>. It is one of the largest projects of renewable energy in the world, and it is built on the independent power producer (IPP) model.
