## Overview

---

Who is Africa switchgear?

Africa Switchgear PTY Ltd is a leading proudly South African manufacturer and exporter of Miniature Substations, Oil & Sf6 type Switchgear, Power & Distribution Transformers, BMK metering units, On-Load tap changers and Low Voltage Panels . We offer the one-stop solutions for all your medium voltage equipment needs.

What are arc flash suits?

Our diverse product range caters to various industries and applications. Our Arc Flash Suits offer head-to-toe protection, including arc-rated hoods, jackets, and pants. These suits are available in various ATPV ratings to suit different levels of potential arc flash energy.

What is an arc flash jacket?

Arc Flash Jacket designed to interface with Arc Flash Hood. An electrical arc flash is more severe with higher voltages & higher fault level ratings of the equipment (switchgear) substation. The greater the flash, the greater the severity of the radiation exposed to the operator.

What is an electrical arc flash?

An electrical arc flash is a condition that is created with the sudden release of electrical energy. An electrical arc flash originates from a breakdown in the insulation medium.

Should electrical technicians wear arc flash suits?

Electrical technicians, by law should always wear and be properly trained in the safe use and application of Arc Flash suits and appropriate personal protective equipment such as insulated rescue sticks for the possible electrical hazard with which they may face.

Are arc flash suits a good investment in Electrical Engineering?

Safety is always a first priority in electrical engineering. The preservation of life is imperative. Arc Flash suits are a small cost in comparison to the loss in quality of life if a worker is exposed to an electric arc event.
