

**SolarGrid Energy Solutions**

# **Argentina power lithium battery wholesaler**

## Overview

---

### Why should you buy lithium in Argentina?

Argentina's vast lithium resources are critical to meeting surging global demand primarily for electric vehicles and large-scale energy storage systems. With this, Argentina is positioned to be a key supplier of high-quality, cost-effective lithium. \* Lithium Argentina's lithium carbonate production expectations on a 100% basis.

### What is Argentina Lithium & Energy Corp?

Argentina Lithium & Energy Corp is a natural resource company engaged in acquiring and exploring resource properties in the Americas and Argentina. Some of its projects are the Antofalla lithium project; Rincon West, Pocitos project, Antofalla North project, and the Incahuasi Lithium project.

### How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

### Is probattery a good battery company in Argentina?

Probattery is one of Argentina's largest battery companies. In 2012, the company increased production to supply the 'Conectar Igualdad' programme following a larger investment. The company has also considered engaging in cell production but deemed the technical and economic challenges to be too big a risk.

### Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in

Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?

How much lithium will Argentina produce in 2040?

If Argentina manages to bring all of projects to production , the country would produce up to 1.5 million metric tons of lithium carbonate equivalent per year, exporting around US\$30 billion. This scenario could be achieved by 2040, according to Dreizzen's estimates.
