# Base station outdoor cable tie color

## Overview

---

What is a 3m cable ties mounting base?

Mounting bases are ideal for use with miniature, intermediate and standard cable ties and are designed to keep your wire or cable bundles organized in narrow spaces. 3M™ Cable Tie Mounting Bases are available in UV weather-resistant black for indoor and outdoor use, and natural or beige for indoor use.

What are weather-resistant cable ties?

Weather-resistant cable ties are versatile and have a part to play in a wide range of outdoor applications, including: • Landscaping - securing irrigation systems, bundling hoses, and organising garden lights. • Construction - managing cables and wires on job sites exposed to varying weather conditions.

What is a tie wrap holder & mounting base?

SAICHUANG's tie wrap holders and mounting bases are designed to securely hold and organize cable ties in a neat and organized manner. Our products are made from high-quality materials, ensuring long-lasting durability and reliable performance.

What is a cable tie holder?

The cable tie holders (also called nylon cable tie mounts) are made of high-quality nylon material, which is lightweight and anti-aging. The color of the nylon cable tie mounts can be black or white. The zip tie cable mounts can be easily concealed for a neat appearance.

What is a sticky cable tie mount used for?

The sticky cable tie mounts can be widely used for wire management clips and electronic cord organizers. The cable tie mounting base for cable ties is a very good solution for securing cables to the back of televisions and home theatre

equipment, running cabling along the wall, running cabling along the roof (indoors), and under desks and tables.

What are heat-stabilised cable ties?

Heat-stabilised cable ties are designed to function effectively in extreme temperatures, with an operating temperature range of -40°C to +120°C. Stainless steel options can handle even more extreme conditions. Moisture resistance - high humidity or direct contact with water can compromise standard cable ties.
