

**SolarGrid Energy Solutions**

# **Battery Energy Storage in Sao Paulo Brazil**

## Overview

---

Grid operator ISA CTEEP has started commercially operating a large-scale battery energy storage system (BESS) at the Registro substation in the Brazilian state of São Paulo. What is Brazil's largest battery storage project?

Further details about Brazil's largest battery storage project to date have been revealed including its integrators and equipment providers. The inauguration of the 30MW/60MWh system took place last year, on the networks of transmission system operator (TSO) ISO CTEEP, as reported by Energy-Storage.news in November.

How many people benefit from battery energy storage in Brazil?

The project benefits more than 2 million people in Brazil. ISA CTEEP, a leader in Brazil's power transmission sector, has just energized the first large-scale battery energy storage project in the Brazilian transmission system. The batteries were installed in an area of approximately 5.000 m<sup>2</sup>, which is the equivalent of half a soccer field.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.

Are energy storage products coming to Brazil?

Holu's Costa observed batteries were prominent during the Intersolar South America trade show held in São Paulo at the end of August 2024. She added, hundreds of manufacturers are bringing energy storage products to Brazil.

Can foreigners invest in battery storage businesses in Brazil?

Investment, incentives and taxation scenarios According to Brazilian law, there are no legal restrictions on direct foreign investment in the battery

storage businesses or in the power sector (except in very specific segments or sectors of the economy).

Is ISO CTEEP the first large-scale battery energy storage system?

ISO CTEEP claimed it as the first large-scale battery energy storage system (BESS) on Brazil's transmission grid. The project required a total US\$27 million investment. The transmission operator is permitted by regulations to earn up to US\$5 million revenues from the asset each year.
