Battery cabinet dropped at Pretoria Telecom site

Overview

Is battery theft a problem in South Africa?

Battery theft at cellphone towers is a major problem plaguing South African mobile networks. The problem is pervasive and has previously caused MTN to shut down some of its cellphone towers as the theft of batteries and vandalism of infrastructure strained its network.

Can cell tower batteries be stolen?

In recent years, telecom base stations and sites all over the world have been suffering from battery theft. Even when the issue is localized to a single site or tower, finding out and potentially replacing these cell tower batteries gets expensive quickly.

Why did MTN South Africa visit a vandalised cell phone tower?

MTN South Africa recently took press to visit cellphone towers that criminals had vandalised. The network operator wanted to show the impact of infrastructure theft and vandalism on its mobile network base stations and the security measures it had taken to try and stop criminals from doing further harm.

How does infrastructure theft and vandalism affect South Africa's mobile network?

The network operator wanted to show the impact of infrastructure theft and vandalism on its mobile network base stations and the security measures it had taken to try and stop criminals from doing further harm. All of South Africa's mobile operators have struggled to keep their networks running optimally amid rising levels of load-shedding.

How does Vodacom prevent battery theft?

"Vodacom is pioneering a new model to clamp down on incidents of battery theft in its base stations by engaging community members working with police

to serve as monitoring personnel to help safeguard its sites – especially in areas where the telco is being hard hit,” Vodacom said.

How many mobile network incidents are there in Gauteng?

With some sites being hit up to 15 times, the total number of incidents in that province for the year stood at over 1,000. MTN’s tour took the media to two sites in Soweto in Gauteng, where the mobile operator has been focusing on improving its network resilience. The first mobile network tower the media was taken to in Soweto.
