### What is a battery test chamber?

Our battery test chambers are designed to test Lithium Ion batteries, lead acid, Battery Managements Systems (BMS), battery packs, modules, battery cells, and more. Our battery test chambers also offer many safety features that conform to IEC, UL and EUCAR testing standards for battery safety.

### What is a LBI battery test chamber?

The LBI battery test chamber is designed for battery tests at a constant temperature and is compatible with Landt and other battery tester brands. It comes with customized battery hosting racks/Bakelites and multiple temperature control protections. It is used for long-span constant-temperature coin/pouch/cylindrical battery tests.

### Why should you use a battery safety test chamber?

Battery failure can consist of leaking, rupture, fire, thermal runaway to an explosion. Battery safety testing in an environmental test chamber can help keep people and products safety. Weiss Technik provides pre-engineered battery test and battery safety chambers. Click to learn more.

### Why is battery testing important?

With the volatile nature of batteries, testing is critical to be sure the batteries are safe in the many environmental conditions to which they are exposed. These environments include temperature, humidity, altitude, water, corrosion, thermal shock, and more.
