Belgian battery pack lithium battery container

Overview

Does Berlin Packaging offer un-certified packaging solutions for lithium batteries?

At Berlin Packaging we offer UN-Certified packaging solutions for lithium batteries, ensuring compliance with IATA, ADR, and IMDG regulations.

Can ionpak transport lithium-ion batteries safely?

The ORBIS IonPak is suitable to transport lithium-ion batteries safely. The UN approved packaging is certified for solid dangerous goods in a variety of different industries. With a robust outer packaging, customised interior packaging and dust cover, our lithium battery shipping boxes optimise product flow in industrial supply chains.

What is lithium ion battery packaging?

The lithium ion battery packaging utilises standard footprints designed to interface with customers' existing supply chains. Once batteries are removed at the assembly line, two-unit loads can fit together and packed into one lithium battery container, to reduce return shipping costs.

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.

What are the certifications for lithium ion battery packaging?

The certifications UN4H2/Y and UN50H/Y of the lithium ion battery packaging apply for recycled and primary materials. Safely transport lithium-ion batteries & solid dangerous goods with UN approved lithium ion battery packaging, like battery shipping boxes.

Do you need a shipping box for lithium batteries?

UN certified containers for transporting and storing lithium batteries are needed to comply with the regulations. ORBIS' lithium battery shipping boxes fully hold and protect the batteries from damage or shocks of any kind. That includes isolating loose cables and poles.
