# Berlin household rooftop power station energy storage lithium battery

## Overview

---

What if a battery storage project was approved in Germany?

If only half of these projects were approved, they would store enough energy to power 30 million German households for one day. Battery storage is needed to supplement the country's rapid rollout of renewable energy installations, which reached a new record share in electricity production of 55 percent in 2024.

What is the German home battery storage market in 2023?

Facts and figures on the German home battery storage market in 2023 (data: German Federal Network Agency). As part of the 2024 Energy Storage Inspection, HTW Berlin researchers analyzed the laboratory measurements from 20 lithium battery systems. With a battery efficiency of 97.8 %, the pulse neo 6 home storage system from Varta came out on top.

Are rooftop solar panels available in Germany?

Today, one out of every two orders for rooftop solar panels in Germany is sold with a battery storage system. The home furnishing company Ikea even offers installed solar packages that include storage capacity.

Where can I contact HTW Berlin for a solar storage inspection 2024?

Interested manufacturers can contact the Solar Storage Systems research group at HTW Berlin directly. The Energy Storage Inspection 2024 was developed as part of the „Perform“ project, which is funded by the Federal Ministry of Economic Affairs and Climate Action (BMWK).

How many home storage systems have been evaluated by the HTW Berlin?

20 home storage systems have been evaluated by the HTW Berlin, including new products from Dyness, Goodwe, Hypontech, Kostal and Pylontech. February 8, 2024 11 companies have had their results published in the 2024 energy storage inspection, stating the product names.

How many manufacturers of home energy storage systems are there in Germany?

Germany now has some 44 manufacturers of home energy storage systems. Germans have installed solar-panel arrays on more than 1 million buildings, but most of them lacked storage units. Now, a growing number of those homeowners are buying batteries.
