# Bhutan 10GWh energy storage battery project

## Overview

---

Why is hydropower important to Bhutan?

“Hydropower is considered our nation’s most precious resource that belongs to all the people of Bhutan.” “I want to emphasise three immediate priority areas that will support the Gelephu project: Energy, Connectivity, and Skills. First, we need to further expand our energy sector.

What are the policies governing the energy sector in Bhutan?

1.8 The energy sector was governed by several policies, such as the Bhutan Sustainable Hydropower Development Policy-2021, Alternative Renewable Energy Policy-2013, Domestic Electricity Tariff Policy-2016 and National Energy Efficiency & Conservation Policy-2019.

What is Bhutan's integrated energy strategy?

The objectives driving this integrated strategy are clear: Guarantee long-term energy security; fuel sustainable socio-economic growth; enhance resilience against climate change; ensure continued access to reliable and competitive energy; and position Bhutan in the forefront of clean energy development.

Does Bhutan need long-term energy security?

With growing demand, where the peak power demand has outpaced firm power supply by 125% in 2024 which is expected to increase further, securing the country’s long-term energy security has become ever more a priority. For Bhutan, long-term energy security means meeting winter demands when our hydropower generation ebbs to the lowest.

Why is Bhutan Rethinking Power imports in 2022?

To meet the energy supply deficits, particularly during the dry winter season, Bhutan has resorted to power imports from the year 2022, and this is expected to continue until adequate additional firm capacity is developed.

How many tons of green hydrogen will be produced by 2040-50?

The estimated usable biomass energy potential is about 2,700 GWh per annum and the coal resource is estimated to be 1.15 million tonnes as of 2020. In addition, the Hydrogen Roadmap envisages production of 70,000 tons of green hydrogen by 2040-50 for use mainly in transport and industry sectors.
