Botswana communication base station supporting equipment

Overview

Does Botswana restrict over the top (OTT) communication services?

Botswana does not restrict over the top (OTT) communication services like voice over internet protocol (VOIP). The Ministry of Communications, Knowledge, and Technology is the authority that issues licenses for telecom services including mobile telephones, data communications, payphones, sale of telecommunications equipment, and internet services.

Does the US export telecommunication equipment to Botswana?

U.S. exports of telecommunication equipment to Botswana have increased significantly over the last several years due to a \$20 million investment from a satellite communications provider. This figure does not reflect those U.S. products exported to South Africa and imported to Botswana by South African distributors.

What is Botswana's e-commerce strategy?

A national E-Commerce strategy to promote the use of digital technology in Botswana's commercial and public spheres was launched in October 2021 and subsequently an e-portal to operationalize the strategy has been developed and piloted.

What are the best sub-sector prospects for Botswana?

Communications services, including internet service provision, telecommunications equipment, and software are the best sub-sector prospects. U.S. exports of telecommunication equipment to Botswana have increased significantly over the last several years due to a \$20 million investment from a satellite communications provider.

How does BOFINET work in Botswana?

In 2017, BoFiNet developed a three-year strategy which managed to expand the national broadband infrastructure coverage to more than 9,200 km.

Botswana does not restrict over the top (OTT) communication services like voice over internet protocol (VOIP).

How has Botswana's broadband industry changed in 2019?

Operators have reduced mobile broadband prices by 55 percent and increased data in data bundles by up to 200 percent. In 2019, the Botswana Communications Regulatory Authority (BOCRA) engaged with operators and agreed to cut data prices by up to 46 percent making data prices competitive in the region.
