

## SolarGrid Energy Solutions

# Brunei large-scale energy storage project

## Overview

---

Upon completion by the end of 2026, the project is expected to be the largest SPVPP in Brunei Darussalam, generating an annual output of 64,473,000 kWh, with a potential to offset about 645,000 MMBtu of natural gas and 92 million tonnes of carbon dioxide. What is Brunei Darussalam's largest solar project?

This milestone represents Brunei Darussalam's largest government-led solar project to date and the first large-scale solar initiative under a Public-Private Partnership (PPP). It underscores the nation's commitment to diversifying its energy mix and pursuing low-carbon development as part of its decarbonisation agenda.

What are the major solar installations in Brunei?

Major active solar installations in Brunei include the country's first, Tenaga Suria Brunei, launched in 2010 with a capacity of 1.2 MWp, and Brunei Shell Petroleum's 3.3 MWp solar plant, launched in 2021 to supply power to its headquarters. Both plants have plans for further expansion.

Does Brunei have a sustainable future?

Brunei is targeting 30% renewable energy in total power generation mix by 2035, with 200 MWp of solar energy by 2025. The launch event also saw the release of Hengyi's 2023 ESG Report, which highlights their progress in environmental sustainability, social responsibility, and governance.

How will solar energy benefit Hengyi industries' petrochemical refinery?

"The solar energy generated through Project SINAR will not only support the energy needs of Hengyi Industries' petrochemical refinery, but will also contribute to Brunei's national power grid when required, enhancing energy sustainability across the nation," said Qiu Jianlin.

What is the largest spvpp in Brunei Darussalam?

Upon completion by the end of 2026, the project is expected to be the largest

SPVPP in Brunei Darussalam, generating an annual output of 64,473,000 kWh, with a potential to offset about 645,000 MMBtu of natural gas and 92 million tonnes of carbon dioxide. The project was formalised on 14 June 2025, following the signing of three pivotal agreements:.

What is Pulau Muara Besar (PMB)?

Photos by: Faiq Airudin Hengyi Industries yesterday launched their solar project at Pulau Muara Besar (PMB), which is set to become the largest in Brunei upon the completion of its first phase in April 2025.

### Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

### Intelligent Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

### Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
