Can I use the Berlin outdoor power supply

Overview

Do I need an adapter to plug the charger into a Berlin outlet?

However, it is possible you'll need an adapter to plug the charger into a Berlin outlet. Berlin uses electrical outlets and power plugs of types C & F (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter.

Do I need a travel adapter in Berlin?

The electrical outlets and power plugs in Berlin are of types C & F (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.

What are the different types of power outlets in Germany?

Let's have a closer look: in Germany we have basically two different types of power outlets and power plugs. The first electrical plug I want to introduce to you is the Schuko plug – or Schukostecker in German which is short for “SchutzKontakt” – Safety Contact. It's the larger, almost round power plug – and it is a grounded plug.

Are German power outlets shaped differently?

Yes, in addition to a voltage difference, German power outlets are shaped differently from those in the United States (see photo above). There are two main plug types in Germany: plug type F and plug type C. Plug type F has two round pins with two ground clips on the side. Plug type C also has two round pins but without clips.

What are the different types of power plugs in Germany?

In Germany, there are two main types of power plugs and outlets: Type C and Type F. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America,

and Africa. Type C outlets can be fit with either Type E or Type F plugs.

Which plug type is used in Berlin?

In Berlin and throughout the rest of Germany, the Type F outlets are more common. Both types are used in many countries across Europe, and both can accept any plug type that has only two round pins: Type C, Type E, and Type F.
