## Overview

---

Are solar panel companies opening up in Canberra?

With the increased popularity of solar power, more and more solar panel companies are opening up in Canberra. The experienced team at Captain Green Solar have been helping home, and business owners make the switch to solar energy for more than ten years across Australia.

Who are Canberra's best solar panel installers?

Updated 18 August 2025 | By John Murtagh ECG Electrical, one of Canberra's most recommended solar panel installers. Photo: ECG Electrical. If you're a homeowner tired of paying thousands of dollars a year for power, chances are you've thought about adding solar panels to your roof.

Why are solar panels becoming more popular in Canberra?

With an ambitious renewable energy target by the ACT government, there are several initiatives offered to residents to undergo solar power installation Canberra. Another primary reason for an increase in solar power use is that the expenses of purchasing and installing solar panels have significantly decreased in recent years.

Why should you choose a solar installer in Canberra?

Solar installers Canberra residents work with should understand the unique needs and requirements imposed by the climate conditions of the ACT. Our team picks only solar panels and systems suited to best suit your needs.

What types of solar power systems are available in Canberra?

We offer five levels of solar power systems in Canberra to ensure every customer can generate the amount of solar power that they require. 3kW Solar System : This system size typically includes 8 to 12 panels and produces between 10 and 13kWh daily.

Does rooftop solar work in Canberra?

Solar electricity generated in Canberra will mostly displace coal generation in NSW, along with a smaller amount of natural gas generation. This makes rooftop solar in Canberra very effective at reducing greenhouse gas emissions.
