

SolarGrid Energy Solutions

Car outdoor power supply solar

Overview

What is solar carport?

Solar Carport is an autonomous dual charging station that doesn't require an external power supply. It has a photovoltaic installation containing solar modules and integrated batteries. Our product enables sustainable electricity generation while maintaining the highest usability, quality, and aesthetics standards.

What is a solar powered parking system?

The solar powered parking system brings the quality of customer service to a new level. This system provide shelter and shade, while reducing the cost of paying bills for electricity. The solar canopies capture abundant free energy directly from the sun, transforming exposed car parks into power stations.

What is a neosun solar carport?

The Neosun Solar Carport offers a versatile and self-sufficient energy solution for any location. Its advanced technology allows it to operate independently, without the need for connection to external power grids or additional fuel sources.

What is solar EV charging?

Solar EV charging is a method of recharging electric vehicles using energy from the sun. It involves installing solar panels, which harness sunlight and convert it into electricity to power EVs. This sustainable approach reduces reliance on traditional grid electricity and offers an eco-friendly way to fuel electric vehicles.

How do neosun solar canopies work?

The solar canopies capture abundant free energy directly from the sun, transforming exposed car parks into power stations. Each system is individually designed by NEOSUN Energy engineers to optimize energy

production in your free space, thereby maximizing your investment returns.

What are neosun energy mounting solutions?

NEOSUN Energy mounting solutions are specially designed for carport installation. The Solar Carport is not only about shading and car protection - it is an asset for generating additional income from energy sale, or a way for powering your property. Simulation of electric energy produced by Solar Carport during an entire year:
