Container outdoor power supply light charging

Overview

What is shipping container solar lighting?

Shipping container solar lighting will be your best solution. No cords to worry about and no worry about losing power. The shipping container solar lighting system is very simple and maintenance free. The 12V battery provides power to the LED lights and the solar panel provides power to the battery through the charging controller.

How to install a shipping container solar lighting system?

12V LED Light Strip. With these parts on hand we can create and install the shipping container solar lighting system. The solar panel will be installed on the roof of the container. The battery and charging controller will get installed inside the container.

What parts do I need for a shipping container solar lighting system?

Here is a list of the needed parts for a solar lighting system. 100W 12v Solar panel with a charge controller. 12V 100AH Battery. Electrical wires & On/Off switch. EMT 1/2 inches electrical conduit. 12V LED Light Strip. With these parts on hand we can create and install the shipping container solar lighting system.

Can you put solar power in a shipping container?

There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit. Well, not really cheated, but I just went with a retail solar generator system instead of DIYing that part myself from à la carte components.

What is a shipping container solar lighting kit 3?

Our Shipping Container Solar Lighting Kit 3 provides lighting in oversized shipping containers and storage areas with 2 days of battery technology for cloudy, rain, or snow days with 8 hours per day of run time.

Can a light be installed inside a shipping container?

No more tripping and fumbling inside a dark storage container. If the shipping container "Storage Container" is set close to power outlet. (close to a building with external power outlet) a standard lighting system can be installed inside the container to provide internal lighting. Fluorescent or LED lights all the same.
