Cylindrical battery cell 14500

Overview

A 14500 lithium-ion battery is a cylindrical cell with dimensions of 14mm in diameter and 50mm in length. What is the voltage of a 14500 battery?

The 14500 battery usually has a 3.6V or 3.7V voltage. It is a cylindrical li-ion cell classified by its roughly 49.2mm length and 13.5mm diameter, and is the rechargeable version of an AA battery.

What is a 14500 Lithium battery?

While identical in size to AA batteries, 14500 lithium cells provide 3.7V versus 1.5V alkaline voltage. This higher energy density (100-265Wh/kg) enables superior performance in LED flashlights but requires voltage-compatible devices.

What is the life cycle count of a 14500 battery?

14500 batteries have an average life cycle count of up to 4,000. Although they look similar to AA batteries, 14500 batteries are chemically different. Most 14500 batteries use a LiCoO₂ (lithium carbon-oxide) ICR chemistry and reach a voltage of 3.6V to 3.7V.

Are 14500 Lithium batteries safe?

14500 lithium batteries offer unparalleled energy density for compact devices but demand strict safety protocols. Understanding voltage compatibility, charging practices, and environmental responsibilities ensures optimal performance while mitigating risks.

What is the difference between AAA and 14500 mAh batteries?

AAA batteries have lower capacity (300-1200mAh vs 500-3500mAh) and different chemistry, making 14500 cells better for high-power applications. This voltage disparity creates unique application scenarios.

How many lithium cells are in a EV battery?

One cell contains 0.15g lithium carbonate equivalent (LCE) – 500 cells equal an EV battery's lithium content. Recycling centers like Call2Recycle process them free in North America. “The 14500 format bridges the gap between consumer alkaline and industrial lithium solutions.

Cylindrical battery cell 14500

Exploring Battery Cell Types: 32650, 32140, ...

This article aims to provide a comprehensive guide on the different battery cell types--32650, 32140, 26650, 21700, 18650, 14500, and 14250--detailing their ...

3.7V 14500 size 1000mAh cylindrical Lilon Cell

Jun 11, 2025 · Get 3.7V 14500 size 1000mAh cylindrical Lilon Cell + PCM Protection TB-14500IC10-BP1 instore or delivered to your door. Buy Online ...

Cylindrical Cell Battery Pack Semi-Auo Assembly ...

May 10, 2025 · Cylindrical Cell Battery Pack Semi-Auo Assembly Machine Line for 14500 18650 21700 26650 32650 Cylindrical Cell, Find Details and Price ...

14500 Lithium Battery-Compact Power , EPT ...

6 days ago · Power your portable electronics with these compact 14500 lithium batteries--durable, lightweight, and built for on-the-go performance.

3.6V 800mAh 14500 Lithium ion Battery

This 14500 cell is a cylindrical lithium ion cell. Unlike 18650 cell, it is smaller and lighter. Besides, this kind 14500 cell has high energy density with low self ...

3.7 V 600mAh Cylindrical Battery 14500 , Ufine Battery [Official]

Aug 4, 2025 · 3.7 V 600mAh Cylindrical Battery 14500 Model: 14500 SKU: UFX0845-03 Ufine is a leading polymer lithium-ion battery cell manufacturer, specializing in the production of 600mAh

...

BR14500 Cylindrical lithium battery China Manufacturers ...

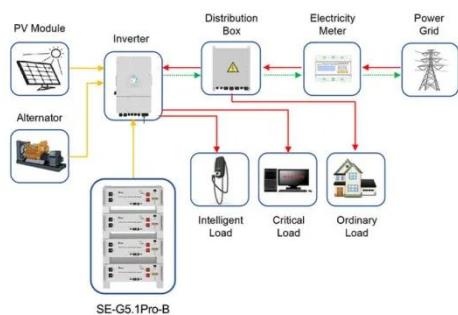

BR14500 Cylindrical Lithium Battery is a high-performance power source designed for a wide range of electronic

devices and applications. This battery is known for its compact size, ...

14500 vs 18650-Battery Comparison , EPT Battery
