

SolarGrid Energy Solutions

Dubai Solar Energy Storage Project

Overview

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery storage to deliver 1 gigawatt of baseload electricity. Who is building the world's largest solar and battery storage project?

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7. Emirati Renewable energy company Masdar (Abu Dhabi Future Energy Company) and Emirates Water and Electricity Company (EWEC) are developing the trailblazing solar and battery storage project.

What is the capacity of solar power plant in Dubai?

The Plant will have an aggregate capacity of 1,600 MWac up to 2000 MWac in Solar Photovoltaic and 1,000 MW in battery storage. The tender process will be able to select a suitable developer/developers or developer consortium/consortia to share ownership of project company/companies to be incorporated in accordance with Dubai and UAE laws.

Where is the Dubai solar project located?

The Project located within the Mohammed Bin Rashid Al Maktoum Solar Park, about 50km south of the city of Dubai to be commissioned in phases starting August 2027. The power generated by the Project will be purchased by DEWA under a long-term Power Purchase Agreement (PPA).

What is a solar-plus-storage project?

This phase, which is expandable to 2,000MW, will use photovoltaic solar panels and a battery energy storage system with a capacity of 1,000MW for six hours, providing a total storage capacity of 6,000 megawatt-hours (MWh). This will make it one of the world's largest solar-plus-storage projects.

What is Dubai's largest solar tower?

With a total investment of \$4.3 billion (AED15.78 billion), the fourth phase covers an area of 44km² and features the world's tallest solar tower at 263.1m high, said a statement from the Dubai Electricity & Water Authority (DEWA).

What is the largest combined solar and battery energy storage system?

Once it's online, will become the largest combined solar and battery energy storage system (BESS) in the world. Located in Abu Dhabi, the project will feature a 5.2 GW solar PV plant coupled with a 19 gigawatt-hour (GWh) BESS. His Excellency Dr. Sultan Al Jaber, minister of industry and advanced technology and chairman of Masdar, said:
