

**SolarGrid Energy Solutions**

# **Dublin Industrial Energy Storage**

## Overview

---

In a bid to support Irish grid stability, Electricity Supply Board (ESB) has opened a major battery plant at its Poolbeg site in Dublin, which will add 75MW/150MWh of fast-acting energy storage. What is energy storage Ireland?

Energy Storage Ireland is a representative association of public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland. Delivering the energy storage technologies to enable a secure, carbon free electricity system on the island of Ireland by 2035.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

When will long duration energy storage be available in Ireland?

The Irish Electricity Storage Policy Framework, published after this data was collected, indicates that an immediate route to market for 500 MW of long duration energy storage is currently being developed, with further studies planned to support long duration storage from 2030 to 2040 (Government Of Ireland 2024a).

Is Ireland going in the right direction for energy storage?

“Ireland is going in the right direction as regards energy storage — we’re good, but we could be a whole lot better,” he explains. “Essentially, we have around 1 gigawatt on the island of Ireland today, and that has been quite a good success story in terms of building out batteries and what they can do in benefits to the electricity grid.

How good is Ireland's energy storage strategy?

Smith pointed out that Ireland's energy storage strategy, published in 2024, was "quite positive." A lot of high-level plans and a technology agnostic outlook. "Unfortunately, we haven't seen a lot of progress on those actions which is a problem we are trying to address," said Smith.

Which ESB site is the largest in Ireland?

According to the Dublin-based, state-owned energy company, the battery energy storage system (BESS) is currently the largest site of its kind in commercial operation in Ireland. The site is the latest in ESB's project pipeline, consisting of sites in Dublin and Cork, representing an investment of up to €300 million (\$323 million).
