Dushanbe UPS uninterruptible power supply 6kw

Overview

What is a 6kVA UPS system?

A 6kVA UPS system from Server Room Environments is an uninterruptible power supply system that supports loads up to 6kVA. The kW-rating will vary depending on the output power factor of the UPS.

Does a 6kva ups have a hardwired output connection?

A 6kVA UPS has hardwired output connections. The system includes a terminal block to which a power distribution unit (PDU) can be connected to provide power to the load.

How much power can a UPS support?

A UPS can support loads up to 6kVA. The kW-rating will vary depending on the output power factor of the UPS. The output connections will be hardwired, with certain models providing additional output sockets.

What is 6000 W intelligent power supply?

The uninterruptible power supply on-line, 6000 W Intelligent series, without battery, is made according to the scheme with double conversion (on-line). It provides a load with a stabilized sinusoidal voltage and is designed to provide an uninterrupted power supply: for servers, telecommunication, network, and industrial equipment.

What type of battery does a UPS use?

The standard UPS battery is a valve regulated lead acid (VRLA) type with options for lithium-ion batteries available.
