EK inverter R

Overview

What is multi-string transformerless solar inverter (EK-11 ek-100)?

Multi-string Transformerless solar inverters (EK-11 ~ EK-100) are suitable for commercial solar power generation market and public institution installment project. Rated output power is 11 ~ 100kW, wide MPPT range and input voltage are supported. It is a high-quality, high-reliability product with green certification technology.

Which solar inverter is best?

EKOS's EK-Series solar inverters combine the latest power electronics and IT technologies to provide the best in class performance and efficiency in its class. Multi-string Transformerless solar inverters (EK-11 ~ EK-100) are suitable for commercial solar power generation market and public institution installment project.

What is a photovoltaic inverter station?

The photovoltaic inverter station is designed to help large-scale PV plants meet complex technical requirements and the most challenging grid codes. Power Plant Controller (PPC) provides unparalleled renewable and storage power management via monitoring and control solutions.
