## Overview

---

What are the four levels of EMS licensure?

Leadership for this project was delegated to the National Association of State EMS Officials and funded by NHTSA and HRSA. The Scope of Practice describes four levels of EMS personnel licensure: Emergency Medical Responder (EMR), Emergency Medical Technician (EMT), Advanced Emergency Medical Technician (AEMT), and Paramedic.

What are the requirements for emergency medical services in South Africa?

(1) The emergency medical service must have systems in place to ensure that patients are treated with dignity at all times. Constitution of the Republic of South Africa, 1996 and Chapter 2 of the Act. 5. The emergency medical service must provide patients with adequate information about relating to the quality of services provided.

What makes a good EMS Station?

Staff facilities, including break rooms and rest areas, are essential components of EMS station design. These spaces provide a respite for personnel, allowing them to recharge and remain alert for duty. Vehicle bays are a critical feature of EMS stations, designed to accommodate ambulances and other emergency vehicles.

What should a EMS Station include?

Another special space your station should include is a place for providers to exercise. Consider the specific workouts and equipment your providers are most likely to need and use. Where a firefighter might need to lift heavy weights, an EMS provider may be better served by a rowing machine, says Rodriguez.

How can Austin-Travis County EMS improve air quality?

UV has become a popular approach, and the new Austin-Travis County EMS

station is equipped with a UV system that filters and cleans the air. Rodriguez says the agency is considering additional options, both to retrofit older stations and to build into new stations. 10. Provide secure drug storage & inventory management.

Do EMS stations need a specific space?

Carve out specific spaces for specific uses Of course any EMS station needs adequate sleeping quarters, bathroom facilities and locker/changing rooms for both men and women – but consider what other activities happen at your station that you may not currently have a specific place for.
