

SolarGrid Energy Solutions

EU TCL solar photovoltaic panels

Overview

TCL Solar, alongside its subsidiary brand SunPower, unveiled its latest photovoltaic (PV) product lineup at Intersolar Europe 2025, offering comprehensive energy solutions tailored to global customers across residential rooftops, commercial buildings, and large-scale utility facilities. Is TCL SunPower launching new solar panels at Intersolar Europe 2025?

TCL SunPower debuts new solar panels and storage solutions at Intersolar Europe 2025, with EU availability set for the second half of the year.

When will TCL solar be available in Europe?

The new portfolio will be available in select European markets starting in the second half of 2025. TCL SunPower is encouraging prospective customers to sign up on its website for early updates and regional availability. Last month, TCL Solar made its debut in South Korea, injecting new momentum into the country's renewable energy sector. (Via).

What are TCL solar panels?

TCL Solar panels complement the SunPower Maxeon and SunPower Performance product lines with a mix of highly reliable, bifacial back contact and TOPCon panel designs. TCL Solar panels come in a variety of form factors, making them suitable for deployment across residential, commercial, and large-scale installations.

What is TCL & SunPower?

The launch reflects the combined strengths of TCL's large-scale manufacturing and SunPower's solar innovation, offering a wide range of energy solutions tailored for homes, businesses, and large-scale installations. Leading the lineup is the SunPower Home Energy Storage system.

Who is TCL photovoltaic technology?

solutions integrating development, manufacturing, and energy management.

TCL Photovoltaic Technology is a green energy full-lifecycle smart service provider that offers one-stop solutions integrating development, manufacturing, and energy management.

What is the difference between SunPower performance and Tcl solar panels?

SunPower Performance panels provide a balance of efficiency and value with TOPCon cell technology facilitating powerful, reliable energy production from a shingled-cell panel design. TCL Solar panels complement the SunPower Maxeon and SunPower Performance product lines with a mix of highly reliable, bifacial back contact and TOPCon panel designs.

**Efficient Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 100W DC Input Overlimit
- Max. PV Input Current 15A, Compatible with High-Power Modules

Intelligent Simple O&M

- IP65 Protection Design, support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- Plug & Play, EPS Switchover Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
