

## SolarGrid Energy Solutions

# East Africa lithium battery station cabinet project

## Overview

---

Who is supplying battery energy storage systems in South Africa?

Source: Eskom. A Chinese green technology company has been contracted to supply battery energy storage systems (BESS) for the Oasis 1 cluster of projects in South Africa. Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage.

Is Envision Energy the largest energy storage system supplier in South Africa?

Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage. The company claims this marks the largest BESS order in South Africa and positions it as the first energy storage system supplier in the region to secure a GWh-scale order.

Why is Africa a key player in the global lithium supply chain?

Thanks to its vast lithium reserves and increasing investments in mining and processing facilities, Africa is emerging as a key player in the global lithium supply chain. As demand for lithium skyrockets due to its critical role in electric vehicle (EV) batteries and renewable energy storage, several African nations are ramping up production.

Where is lithium found in Africa?

Africa is home to several notable lithium mines and projects, with countries like Zimbabwe, Namibia, Ghana, the Democratic Republic of Congo, and Mali possessing commercial quantities of this critical resource.

What role does Bikita play in Africa's lithium export market?

Historically known for its spodumene and petalite production, Bikita is poised to play a major role in Africa's lithium export market. The production of lithium ore at Bikita Minerals is significant in the global market, contributing to the

growing demand for renewable energy technologies. 3.

Is Ghana a leader in the lithium sector?

With an estimated mineral resource of 35.3 million tons grading 1.25%  $\text{Li}_2\text{O}$ , this project represents a key milestone in Ghana's emergence as a player in the lithium sector. These projects are expected to produce significant quantities of lithium concentrate.

## East Africa lithium battery station cabinet project
