

SolarGrid Energy Solutions

El Salvador Central Inverter Manufacturer

Overview

What is a solar string inverter?

Solar string inverters are electrical devices that convert the direct current (DC) generated by solar panels into alternating current (AC) that businesses can use. They are usually installed in a string formation where multiple solar panels are connected in series to form a single circuit.

What is a hybrid storage inverter?

The Sunplus Hybrid Storage Inverters are designed to increase energy independence for homeowners and commercial users. The Hybrid Inverter power range is from 3kW to 60kW, compatible with low voltage (40-60V) batteries and high voltage (150-800V) batteries.

What is the power range of a hybrid inverter?

The Hybrid Inverter power range is from 3kW to 60kW, compatible with low voltage (40-60V) batteries and high voltage (150-800V) batteries. Sunplus latest EV Charging Station product line offers a range of innovative solutions to meet diverse charging needs.
