Energy storage cabinet factory operation and sales information

Overview

How does the electric cabinet on the production line improve production efficiency?

The electric cabinet on the production line uses an AGV flexible design for transportation, which enhances production efficiency.

What is a Tier 1 energy storage Manufacturer?

As a Tier 1 global energy storage manufacturer, delivering integrated equipment and solutions. Operating one of the largest and most reliable direct-dispatch virtual power plants in its region, aggregating 300MWh of generation-side capacity and 200MWh of load-side capacity. Established operational portfolio.

What is R&D in energy storage?

The R&D team, comprising PhD experts in electro-chemistry, power electronics, electrical engineering, and materials science, collaborates with renowned institutions to advance cutting-edge research, foster talent, and drive innovation in energy storage technologies.
