## Overview

---

What is a compressed air energy storage project?

A compressed air energy storage (CAES) project in Hubei, China, has come online, with 300MW/1,500MWh of capacity. The 5-hour duration project, called Hubei Yingchang, was built in two years with a total investment of CNY1.95 billion (US\$270 million) and uses abandoned salt mines in the Yingcheng area of Hubei, China's sixth-most populous province.

When will Tesla's energy storage factory in Shanghai start production?

Tesla's energy storage factory in Shanghai is expected to complete construction by the end of this year, with production set to begin in the first quarter of 2025. Tesla's (NASDAQ: TSLA) Megafactory in Shanghai is nearing completion of construction in preparation for a planned operation in the first quarter of next year.

What is the largest battery storage project in the world?

The CES said that this battery storage project is destined to be the largest in world. An up to 4,600 MW battery energy storage system (BESS) will be paired with a solar installation of 3 million solar modules providing 1.1 GW of solar, it will generate enough electricity to power 850,000 homes for four hours.

How successful is Tesla's Energy Storage Technology?

Tesla's energy storage technology has already achieved a high level of commercialization and market success in the United States, said Liu Qing, vice president of the China Institute of International Studies.

What energy storage products does Tesla make?

Tesla's energy storage products include Powerwall, Powerpack and Megapack. The Shanghai Megafactory mainly produces Megapack, an ultra-large commercial energy storage battery, for the global market. (An image posted by Tesla on Weibo on May 23, 2024, about the opening of its Shanghai

Megafactory. Image credit: Tesla).

How big is intersect power's solar-plus-storage portfolio?

San Francisco-based Intersect Power, a solar-plus-storage specialist, reports it currently a base portfolio of 2.2 GW of operating solar and 2.4 GWh of battery storage in operation or construction, representing ~\$4B of capital investments.
