Factory price 240 amp breaker in America

Overview

List price on this unit is \$833.00 Packaged Weight is 7lbs shipping available anywhere in the US What is a 240V circuit breaker?

A circuit breaker 240V is also known as a double-pole circuit breaker. It is mainly used to protect a dedicated circuit for high-power appliances such as electric ranges, air conditioners, and more. This breaker is rated chiefly from 20 to 60 amps. Since a 240V breaker is as big as two 120v breakers, it takes up two places in a load center.

Which breaker is rated 240 volt?

It's rated 240 Vac, 250 Amp maximum and can be used in bolt-on constructions. This breaker is compatible with Square D individual enclosures, metering devices, panelboards or switchboards that accept Q-Frame breakers. This PowerPact Q-Frame circuit breaker is a 2-pole breaker rated for 200 Amp.

How many 240 volts does a 100 amp breaker use?

Since your 100 amp, 240 volt service consists of 100 amp, 120 volt branches, you can have 100 amps of load on each of the two branches. Note that the AC has two 120 volt breakers with the handles connected together. That uses both of the 120 volt branches to make a 30 amp, 240 volt breaker.

How many amps does a 240 volt breaker draw?

A. 240-volt breakers draw power from one bus bar. B. 240-volt breakers are always 15- or 30- amps. C. 240-volt breakers are connected to two separate bus bars in the panel. D. 240-volt breakers should always be located at the very top of the panel. C. 240-volt breakers are connected to two separate bus bars in the panel.

What is a Homeline circuit breaker?

Homeline circuit breakers are designed to plug into Homeline load centers to

provide circuit protection. This circuit breaker provides standard circuit protection and is HACR rated. This 2 pole circuit breaker with plug in mounting is rated 40A at 120/240 VAC. HOM breakers provide 10 kA breaking capacity. The electrical connections are box lugs.

Is a circuit breaker consumer packaged?

Circuit breaker is consumer packaged. Schneider Electric aims to achieve Net Zero status by 2050 through supply chain partnerships, lower impact materials, and circularity via our ongoing “Use Better, Use Longer, Use Again” campaign to extend product lifetimes and recyclability.
