

Finnish container EK generator set

Our Lifepo4 batteries can beconnected in parallels and in series for larger capacity and voltage.

Overview

Who makes Ek fuel tanks and enclosures?

As a leading fuel tank and enclosure manufacturer in the power generation industry, the Power Products division of EK has become the gold standard in quality, turn-around time, and customization for enclosures, fuel tanks, containers, and trailers for power generation equipment.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What is a Tier 4 containerized generator?

Our Tier 4 containerized generators are high-powered —500 kW to 1250 kW— units packaged in 30-foot or 48-foot ISO containers.

Why should you choose Ek generator enclosures?

Using our state-of-the-art production facilities, our customers can choose from a comprehensive list of standard generator sets or work with our engineering and manufacturing teams to build an enclosure customized to their unique specifications. In times when backup power cannot fail, EK provides durable and reliable enclosures to keep you running.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +40°C. The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers.
