# **Generator container price**

## Overview

---

Where can I buy a genset container?

The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset. Here at Alconet, you can buy a genset container both new and used. Take a look at our current offer down below, or request a quote directly to receive a price inquiry.

What are mg containerized gensets?

MG containerized type gensets use advanced sound-absorbing materials, scientific and unique design in airflow and noise control. The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation.

How much does it cost to ship a generator?

The cost to ship a generator can vary quite a bit, from a few hundred dollars for a small, residential standby generator, to thousands of dollars for a large industrial generator. Shipping costs are typically charged at a per-mile rate.

How much does a generator cost?

The cost of a generator varies depending on its size. A small generator can be had for \$30,000-\$40,000 new, while larger ones can retail for anywhere from \$100,000 to \$500,000 or more. A good rule of thumb in sizing the generator is 50 kW plus 10 watts per square foot.

What is a forx container type diesel generator set?

FORX container type diesel generator set uses advanced sound-absorbing material, through scientific design and the advanced technology in the field of acoustics, airflow to achieve the goal that reduces the noise.

What size genset container do I Need?

The container is fixed with an inspection door at each side, also equipped with a ladder outside for easy inspection and maintenance. -According to genset dimension, below 1000 KVA, it will use ISO 20'ft GP or HQ container and 40' HQ container for above 1250KVA.
