# German wind power energy storage system manufacturer

## Overview

---

Why should we invest in solar parks in Germany?

Germany is a country with an increasing amount of renewable energy. BESS are a key technology for this, as the plant in Bavaria shows. Result Through the combination of expertise and suitable solutions, solar parks like the one in Bavaria become a cornerstone of sustainable energy transformation.

How many MWh can a German solar park produce a year?

In total, the facility can produce up to 10,000 MWh per year, with its establishment supported by the German government: Due to the sustainability of the solar park, it benefits from subsidies provided by German programs to strengthen renewable energies. Germany is a country with an increasing amount of renewable energy.

Who makes Solar Turbines?

Solar Turbines Incorporated, headquartered in San Diego, California, is a wholly owned subsidiary of Caterpillar Inc. Solar manufactures the world's most widely used family of mid-sized industrial gas turbines, ranging from 1 to 39 megawatts. More .
