

**SolarGrid Energy Solutions**

# **Guatemala City Wind Power Storage**

## Overview

---

How many wind power plants are there in Guatemala?

Guatemala generates wind-powered energy from 2 wind power plants across the country. In total, these wind power plants has a capacity of 71.1 MW. How many wind power plants are there?

There are currently 5,278 utility-scale (commercial, greater than 1 MW) wind power plants in the world. With a total of 350,000+ wind turbines globally.

How much electricity does Guatemala have?

As of 2020, Guatemala had 4110 MW of installed electrical capacity, based primarily on hydro power (38.38%), fossil fuels (30.36%), and biomass (25.20%). Other renewable sources represented a much smaller percentage of capacity, including wind (2.61%), solar (2.25%) and geothermal energy (1.20%).

What is San Antonio El Sitio wind power project?

San Antonio El Sitio Wind Power Project is the first wind project located in the Guatemalan region. This project was executed by a Guatemalan firm, Eólico San Antonio El Sitio, and deploys sixteen 3.45 MW units of wind Turbine Generators for an annual average of 135.655 GWh of green electricity to the regional grid.

What is Guatemala's energy source?

This page is part of Global Energy Monitor 's Latin America Energy Portal. In 2018, Guatemala derived 57.43% of its total energy supply from biofuels and waste, followed by oil (29.54%), coal (7.68%), hydro (3.22%), and other renewables such as wind and solar (2.12%).

Why is Guatemala a good place to invest in energy?

Guatemala is a good place for energy investments because it offers

opportunities for cleaner energy generation due to its rich natural resources. The country is also working on policies to promote efficient energy supply, allowing U.S. companies to provide technology and know-how.

How is electricity regulated in Guatemala?

Guatemala's electricity industry is regulated by the General Electricity Act (Ley General de Electricidad) and the CNEE (Comisión Nacional de Energía Eléctrica). The DGH (General Direction of Hydrocarbons) regulates the hydrocarbon sub-sector.
