

SolarGrid Energy Solutions

Hbd outdoor power supply

Overview

Can HBD® be connected to external power station?

It can be connected to external PV power station, AC generator and Grid power. HBD® is mainly developed for no emission and low noise, reducing the dependence on grid, improving power supply quality and ensuring the power consumption of emergency load.

What is HBD® & MPMC hybrid power station?

HBD® is mainly developed for no emission and low noise, reducing the dependence on grid, improving power supply quality and ensuring the power consumption of emergency load. For Residential & Commercial Independent Power MPMC Hybrid Power Station is a reliable resilient / prime energy solution mainly developed for independent power.

What is HBD®?

HBD® is a new range of secure integrated battery energy storage system. This mobile and modular solution includes batteries, PCS & control system, HVAC, fire protection and auxiliary components for optional. It can be connected to external PV power station, AC generator and Grid power.

What is hybrid power station?

For green living while ensuring stable off-grid power source, Hybrid Power Station integrates diesel generator set (gas generator set for optional), solar power, battery storage and hybrid solar inverter in one secure unit. It helps customers realize solar self-consumption, rate arbitrage and more importantly, power independence.

A collection of renewable energy components. At the top left is a white three-bladed wind turbine. Below it are two solar panels: one standing upright and another tilted. In the center is a large blue battery storage unit with a white top. To its right is a white energy storage container with a solar panel mounted on its roof. In the foreground, there is a smaller blue battery unit and another white energy storage container with its side panel open, revealing internal components.
