## Overview

---

Where are our energy storage systems made?

Designed and manufactured in Finland – powered by 100% European technology. Usability is our pride. We guarantee an annual availability rate of at least 96%. Our energy storage systems are tested to withstand even the harshest arctic conditions.

Why should your business use an energy storage system?

With an energy storage system, your business is protected from power outages and market volatility. Depending on your needs and applications, energy storage can serve a variety of purposes. The modular Enico | Jupiter system is your gateway to a smarter, more sustainable energy future. Modular. Intelligent. Scalable.

What is an energy storage system?

An energy storage system enables property-specific optimization of electricity consumption and energy costs. It can also be used to participate in grid frequency reserve markets. Enico | Jupiter scales to large-scale renewable energy applications and hybrid power plants.
