Quality Solar Panels in Costa Rica! Pura Vida Energy Systems sells only the highest quality Tier 1 solar panels with a 25 year warranty that is guaranteed by third party insurance. This insurance means that if the manufacturer goes out of business the pre-paid insurance policy will reimburse you for the value of the panels [.].

Why should you choose Costa Rica solar solutions?

Costa Rica Solar Solutions designs custom solar system solutions based on the energy needs of your home or business. Clean energy offers great return on your investment and allows you energy independence. Costa Rica Solar Solutions has completed many of the largest commercial solar systems in the country.

How much solar power can Costa Rica use?

Utilising about 6% of total solar power potential and 25% of Costa Rica's wind power potential would suffice to supply enough energy to do so. Electricity costs can be reduced by almost US\$ 1 cent per kWh of power generation by deployment utility-scale and decentralised renewable energy installations.

Is solar power a new energy source in Costa Rica?

Like wind power, solar power is another newer energy source in the country. The first solar power projects in the country were established in 1978 by just a

few researchers from public universities at the Solar Power Laboratory at the National University. During 2012, Costa Rica inaugurated the Miravalles Solar Plant next to the Miravalles Volcano.

Why should you invest in solar energy in Costa Rica?

Lester provides excellent service and value for solar projects in Costa Rica. We decided to invest in solar energy for a couple reasons. One was, the project that we have going on our property, we're trying to do things in a more sustainable way. The solar energy really fit in with the whole project.
