## Overview

---

What is a 4000A switchboard?

A 4000A switchboard is a type of switchboard commonly used in various industries for low and medium voltage applications. All main switchboard components within 4000A switchboards, including busbars, circuit breakers, and switchgear, are coordinated to work together effectively and safely to distribute power throughout the system.

Who is Shanghai people switchgear factory?

Shanghai People switchgear factory, established in 1983, is a large-scale manufacturing enterprise integrating R&D, production, sales and service of high and low voltage electrical appliances, instruments, power transmission and distribution equipment, high voltage electrical components, building appliances.

What is a dual power automatic transfer switch?

**Knife Switch Types.** A dual power automatic transfer switch is a device that can automatically switch between two power sources, such as common power supply and standby power. RCCB stands for Residual Current Circuit Breaker. It is an electrical safety device that quickly breaks an electrical circuit with leakage current to ground. It
