Why should you choose LG Energy Storage Systems?

LG is proud to lead the charge toward a greener future with stylish and dependable electrification solutions. With our all-in-one Energy Storage Systems, we're committed to providing more reliable, renewable energy to power your home when you need it and peace of mind when you don't. Home is where the 'smart' is.

What is LG's Home Energy Platform?

LG's Home Energy Platform is a complete energy solution for a more sustainable home. By combining the LG ESS and LG Therma V AWHP, the platform offers efficient heating as well as user-friendly energy management – including all spectrum from production and storage to usage and conservation.

How many kWh can a home energy storage system store?

Connect up to four systems to store up to 57.6 kWh of usable energy, reducing dependency on the grid and offsetting peak shifts. Get around-the-clock sustainable power you can count on with home energy storage or commercial energy storage solutions engineered by LG Electronics.

How do I contact LG Energy Solution?

Contact LG Energy Solution if you need assistance by phone at 888-737-8104 from 9 a.m. to 5 p.m. ET Monday through Friday, or by email at RESUserice@lgensol.com. The ESS Home Battery's unique serial number, which is located behind the access door at the bottom right of the unit, will determine if that battery is affected.

Is LG Energy Solution replacing ESS home batteries free of charge?

LG Energy Solution is replacing affected ESS Home Batteries free of charge as replacement units become available. LG Energy Solution, its distributors, and its installers are attempting to contact owners directly, but consumers with recalled batteries may also contact LG Energy Solution to schedule a free replacement.
