

# **How many 5G base stations are there in Poland with 2MWH**

## Overview

---

How many 5G stations are there in Poland?

A network of 100 transceivers will be operating in 7 Polish cities - Warsaw, Gdansk, Katowice, Lodz, Poznan, Szczecin and Wroclaw. The second stage of Plus 5G network development in Poland will be to provide coverage for the entire area of Warsaw and the towns and places around it, with over 600 additional 5G stations being constructed.

Does Poland Plus have a 5G network?

The true 5G network coverage offered by Plus will be available to over 11 million inhabitants of Poland Plus is rolling out a 5G network in all present and former provincial capitals and their neighboring areas.

Will Poland have 5G in 2021?

In 2021 Plus plans to offer 5G services using more than 1700 base stations in all present and former provincial capitals, as well as in many other towns and places. Thus, next year more than 11 million people will be able to enjoy the services of the fastest in Poland 5G 2600 MHz TDD network.

What is the fastest 5G network in Poland?

As a confirmation of its earlier announcements, Plus continues the roll-out of the fastest 5G network. The first in Poland 5G network, using the spectrum from the 2.6 GHz TDD frequency band, was launched with the use of 100 transceivers in 7 cities in May 2020. It offers data transfer speeds of up to 600 Mbps.

Will Poland establish a state-owned 5G network in the 700 MHz band?

Furthermore, Poland is also exploring a controversial law to establish a state-owned 5G network, which would be operated by a state run operator — Exatel — in the 700 MHz band. The 700 MHz band is problematic because it requires coordination across the eastern borders (Belarus, Russia and Ukraine), which

will delay spectrum assignment.

Why should you choose a 5G operator in Poland?

Plus is the only operator on Polish market to have allocated a dedicated 2600 MHz frequency band using TDD technology for 5G operations, thus increasing the network's throughput. The solution used for 5G network roll-out by the operator of Plus network is the world's most advanced technology.
