

# How many volts does a portable dvd power supply have

## Overview

---

How many volts does a Panasonic DVD player have?

PLAYS ANY DVD FROM ANY COUNTRY REGION-FREE & CODE-FREE PLAYS ALL REGIONS! 1, 2, 3, 4, 5, 6, 0 PAL & NTSC COMPATIBLE DUAL Voltage - 110 Volts & 220 Volts BRAND NEW PANASONIC MULTI-REGION DVD PLAYER The DVD-S500 Multi System DVD Player from Panasonic is a dust-resistant DVD player featuring versatile disc compatibility.

How much power does a DVD burner need?

I have noticed that DVD burners seem to require about 1.5-1.6 A (all are 12V) whereas the combo drive I was using required 1.3A so those sites both need a little updating if they are suggesting that the combo drive requires more power or they do not have figures for double layer DVD RW drives which could require more. So no help from either site.

How much power does a DVD take?

Technical Specifications Frequency response DVD (PCM 48 kHz): 8 Hz to 22 General Power requirements 200-240V,50/60Hz Video S/N Audio S/N Power consumption Maximum 26W (Stand-by :3.7W) Dimensions (approx.) Harmonic distortion Less than 0.06% 430 \*92 \*312 (w\*h\*d) Dynamic range Resolution Mass (approx.) 4.96 Kg.

Can a 12V power supply Cook a DVD player?

9v. 12v would probably cook it. 9v, but make sure that the power supply outputs more amps than the device draws. The power supply will say the output amps and the DVD player will say on it somewhere what the input amperage is. As long as the power supply outputs more than the DVD player inputs, you'll be fine.

How much power does an external DVD take?

Larger external dvd units that are furnished with an a/c adapter which usually

has a different connector for the power than a usb one often take more power than the slim line/portables. Slim line need usually somewhere between 0.5amp and 1.0amp at 5volts.

How many volts do I need for a power supply?

Slim line need usually somewhere between 0.5amp and 1.0amp at 5volts. Larger units may require have an a/c adapter at 1.0 – 1.5amp, and the power connector will not be a usb style one (and the volts delivered may be more like 9.0volts).
