How much is the tariff for outdoor power supply in Estonia

Overview

Does Estonia follow EU import tariffs?

Estonia follows the EU import tariff schedule. The duties for non-European countries are relatively low, especially for manufactured goods (4.2 percent average rate).

Where can I find more information about Estonian tariffs?

More information is available via the Estonian Master Tariff System. Includes information on average tariff rates and types that U.S. firms should be aware of when exporting to the market.

What is Estonia's energy policy?

The Estonian Government is giving high priority to its energy sector in its ongoing economic reform program. Government policy and objectives toward its energy sector can be summarized in two ways: to provide a reliable source of energy for the country, and to provide such energy at the lowest possible cost.

How much does electricity cost in Estonia?

Estonia, June 2023: The price of electricity is 0.320 U.S. Dollar per kWh for households and 0.183 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How much energy does Estonia use?

Estonia's all-time peak consumption is 1591 MW (in 2021). In 2021 the electricity generated from renewable energy sources was 29.3 %, being 38% of the share of renewable energy in gross final energy consumption. Oil-based fuels, including oil shale and fuel oils, accounted for about 80% of domestic production in 2016.
